

# *supporting families when they need it most*

**FOR THE SANDTON AREA**

SIA is launching a community initiative to support families who have loved ones receiving care in hospital.

We understand that hospital stays can be challenging for families, especially when they are faced with unexpected circumstances and practical difficulties.

Through this initiative, SIA aims to provide assistance where possible, including:

- ✓ Halaal meals for patients' families and caregivers
- ✓ Practical support and assistance during difficult times
- ✓ Logistical assistance where needed
- ✓ Community support for families navigating a hospital stay

If you know of a family who may benefit from our assistance, or if you would like to find out more about this initiative, please get in touch with us.
